f95 Prerequisites & Goals

LaTeX

- Obviously some basic LaTeX knowledge is necessary
- Some more features will be provided here

Beamer

- You'll learn them by looking at this presentation source

Goal

- Learn how to make well structured slides
- Using a beautiful theme (congrats to the Oxygen team!)
- Take over the world
- Relax...

f95 Sections, Frames and Blocks

The current section is "Basic structuring". And the current frame is what you have on the screen right now.

> ## A beautiful block
>
> A block has a title, and some content. You can put in a block almost everything you want that is provided by LaTeX. For example math works as usual:
>
> $$\sum_{i=1}^{n} i = \frac{n \times (n+1)}{2} \tag{1}$$

Also works outside a block:

$$\sum_{i=1}^{n} i^2 = \frac{n \times (n+1) \times (2n+1)}{6} \tag{2}$$

f95 Different type of blocks

Standard block

- A standard block, used for grouping
- Obviously can contain itemizes too...
    - And nested itemizes...
    - of course!

Alert block

WARNING: Something very important inside this block!

Example

Note that examples are displayed as a special block...

f95   Highlighting

A regular block

- Normal text
- Highlighted text to draw attention
- "Alert'ed" text to spot very important information
- Alternatively you can
    - "Alert" the item itself
    - Or "Highlight" it

If it's very very important...

... you can "alert" in an "alertblock"
Ewww, nasty, heh?
